Ron Acosta's Design approach to casual elegance is inspired by his Florida upbringing. He was born and raised in Tampa, Florida where he became bi-lingual with Spanish as his second language. Ron received his first Bachelor's degree from **The University of South Florida in Mass Communications / Public Relations**. He then went directly into retail furniture sales where he discovered his love for Design and acquired his first hands-on training in the field. He then moved to the east coast of Florida to pursue his passion for Interior Design. While working in large Design firms from Palm Beach to Dade County, Ron furthered his formal education in Interior Design and received his second Bachelor's degree from the **Art Institute of Fort Lauderdale**.

In addition to Residential Design for individual clients, Ron has had an ongoing relationship with several management companies, which include **Reefe**

**Properties, JPI Management Group, Greystar Properties and Riverstone Residential Group**. He developed a strong sense of space planning after completing dozens of models, common areas, leasing offices and club houses for these groups. Custom design in new construction has also brought Ron to create models within **Royal Palm Yacht & County Club, Las Olas River House, Library Commons of Boca, Villas by the Sea by Minto Group and National Custom Homes**.

With nearly 30 years in the industry, Ron has learned the importance of how the designer/client relationship impacts the execution of a project. Ron Acosta Interiors provides each client with an individual and unique design incorporating the client's personal style. Ron's attention to detail and eclectic approach is what makes each space unique. Over the years his work has been featured in publications such as **Florida Design, Boca Magazine, and Miami Home & Décor**, to name a few. Ron Acosta Interiors takes great pride in their designs. Whether contemporary or traditional, their goal is to create personalized environments that enhance your life with elegance and comfort.
